

Description

To pursue its objective, the Fund normally invests in equity securities of companies that:

- Are organized under the laws of China, Hong Kong or Taiwan;
- Are primarily traded on the China, Hong Kong or Taiwan exchanges; or
- Derive at least 50% of their revenues from business activities in China, Hong Kong or Taiwan which are listed and traded elsewhere.

Why Invest in China?

Strong Domestic Economy

- 2nd largest economy in the world, not export dependent
- Franchise brands emerging
- Economy transitioning to private-sector led growth
- Strong government finances

Sustainable Growth

- Urban migration
- Rapidly expanding middle class
- Consumer credit penetration accelerating
- Rising demand for autos, electronics, consumer durables and housing
- Trends similar to the US post-WWII

Healthy Fundamentals

- High savings rate
- Well-developed infrastructure
- Supportive government policy
- Ongoing financial reforms

¹ December 30, 2005

Performance data quoted represents past performance. Past performance does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than the original cost. Current performance data may be higher or lower than actual data quoted. The Fund imposes a 2.00% redemption fee on shares held for less than 30 days. Performance shown does not include the redemption fee, which if reflected would reduce the performance quoted. For the most current month-end performance data please call 1.866.759.5679. Performance includes reinvested distributions and capital gains.

Effective December 1, 2017, Class A shares of the Clough China Fund were renamed Investor Class shares and such shares will be offered without an initial sales charge or a contingent deferred sales charge. CDSC performance for Class C shares includes a 1% contingent deferred sales charge (CDSC) on C shares redeemed within 12 months of purchase. Performance shown at NAV does not include these sales charges and would have been lower had it been taken into account.

Performance prior to January 15, 2010 reflects the historical performance of the Old Mutual China Fund (as a result of a prior reorganization of the Old Mutual Fund China Fund into the Fund).

Effective June 12, 2018, Class A shares of the Clough China Fund were added as a new available fund class. Performance for Class A Shares prior to June 12, 2018 reflects the historical performance of the respective Fund's Investor Class Shares, calculated using the fees and expense of Class A Shares.

The information contained herein: (1) is proprietary to Morningstar; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results. For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating™ based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance (including the effects of sales charges, loads, and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.) The Overall Morningstar Rating™ for a fund is derived from a weighted average of the performance figures associated with its three-, five- and ten-year (if applicable) Morningstar Rating™ metrics. As of September 30, 2018, the Clough China Fund was rated against the following numbers of U.S.-domiciled China Region Funds over the following time periods: 80 funds in the last three years, 74 funds in the last five years and 41 funds in the last ten years. With respect to these China Region Funds, Investor Class Shares received a Morningstar Rating™ of 3 stars for the overall, 2 stars for the three and five-year periods and 4 stars for the ten-year period; C Shares received a Morningstar Rating™ of 3 stars for the overall, 2 stars for the three-year and the five-year periods and 3 stars for the ten-year period; and I Shares received a Morningstar Rating™ of 3 stars for the overall, 2 stars for the three and five-year periods and 4 stars for the ten-year period. Other classes may have different performance characteristics. Past performance is no guarantee of future results. ©2018 Morningstar, Inc. All Rights Reserved.

- Fund managed by Charles Clough, Brian Chen, and Anupam Bose, who have an average of over 30 years of industry experience.

Important Disclosures & Definitions

An investor should consider investment objectives, risks, charges and expenses carefully before investing. To obtain a prospectus, which contains this and other information, call 1.866.759.5679 or visit www.alpsfunds.com. Read the prospectus carefully before investing.

Investing in China, Hong Kong, and Taiwan involves risk and considerations not present when investing in more established securities markets. The Clough China Fund may be more susceptible to the economic, market, political, and local risks of these regions than a fund that is more geographically diversified. Investments in small companies are generally more volatile and less liquid than those of larger companies.

In order to gain exposure to certain issuers, the Fund may participate in market access mechanisms administered by the respective markets, which may be subject to quota controls, heightened liquidity risks and different settlement procedures than would typically be expected with respect to U.S. issuers.

MSCI China - The MSCI China Index is constructed according to the MSCI Global Investable Market Index (GIMI) family. The MSCI China Index is part of the MSCI Emerging Markets Index. An investor may not invest directly in an index.
